

Room Alert 11E is one of AVTECH's hardware solutions for "Computer Room Environment Monitoring, Alerting & Automatic Corrective Action". It is designed specifically to assist with computer room temperature, humidity and environment monitoring in multiple locations simultaneously while logging temperature, humidity and environment sensor status data for immediate alert notification, historical review and graphing. Room Alert 11E allows alert notifications via email, email-to-SMS, SNMP and more to devices like computers, mobile phones, pagers and PDAs. Room Alert 11E offers an easy to use web browser interface for settings changes and viewing real-time temperature and environment sensor status from anywhere.

Front View

Back View

- Easy Ethernet 'Plug and Play' setup for remote temperature and environment monitoring.
- Includes 1 digital temperature/humidity sensor, 1 digital temperature sensor, and 1 open port.
- Includes a power sensor and 7 open channels for additional switch sensors or dry contacts.
- Advanced alerting by email, email-to-SMS, SNMP, web page update & much more.
- Use Room Alert 11E's built-in web server or the powerful PageR Enterprise software (included at no charge) that can monitor Room Alert boxes, servers, devices & events located anywhere network-wide.
- Room Alert 11E package allows real-time temperature & humidity monitoring, logging, one click data export, advanced alerting, Fahrenheit/Celsius, high/low watermarks, temperature & humidity values in alerts, more.
- Use Room Alert 11E with or without a host system. That's right... No PC Required! This saves money, improves reliability, provides options.

Room Alert 11E monitors environments like small phone or wiring closets, critical rack cabinets and larger computer rooms or data centers. Since Room Alert 11E is connected via Ethernet and does not require a host PC for operation, it can be located anywhere an Ethernet connection is available. Sensors can be run inside a rack cabinet, air vent, sub floor or other location. Room Alert 11E will help to protect valuable IT equipment and minimize downtime if a disaster does occur.

Protect Your IT Facility... Don't Wait Until It's Too Late!

This Package Includes:

- Room Alert 11E ID Box w/Ethernet
- One (1) external digital temperature/humidity sensor w/25' RJ-11 cable
- One (1) external digital temperature sensor w/25' RJ-11 cable
- Three (3) external digital sensor ports (front, 1 open) for temperature/humidity or temperature
- One (1) external power sensor w/25' cable and power adapter
- Eight (8) external sensor channels (back, 7 open)
- International 5V power adapter (110-240V, RoHS compliant)
- 10' Ethernet cable
- Built-in web server (web browser interface, alerts from ID box)
- Device Manager software license (included, no charge)
- PageR 10 Object Enterprise software license (included, no charge)
- CD installation & resource media
- Printed Room Alert 11E User's Guide & Reference Manual
- Printed Getting Started With PageR Enterprise manual
- 12 months of Maintenance Support & Update Service
- Toll free sales & technical support
- 30 Day Satisfaction Guarantee
- Hardware Replacement Guarantee
- AVTECH Software's almost 20 years of experience

* A rack mount, additional sensors and international plug adapters are optionally available (see below).
