

VALOR SYSTEMS

Valor Systems raises the bar in Public Safety by introducing ValorCAD™, ValorRMS™ and ValorMOBILE™ for Macintosh®. Enjoy the freedom of the Valor Incident Management System™ that runs on Windows® and Mac®.

Now you can implement the proven Valor solutions in a cross-platform configuration with scalability and buildability. The role-based VALOR IMS offers extreme operator efficiencies and an eye-pleasing User Interface—the ultimate User Experience. VALOR IMS™ allows an agency to create user-defined fields, a customized UI and workflow, custom reports and more to handle ever-changing Public Safety requirements. The new seventh-generation VALOR IMS is your solution for true investment protection. (100 words)
